If your outdoor living space is limited, or if you aren't quite the master landscaper, the Serenity 100 fireplace is an excellent outdoor fireplace option. With all the beauty and elegance of the larger fireplaces, the Serenity 100 is great for minimal spaces and is easier to install than our larger fireplaces. *(Note: All of our D-I-Y kits are available in additional colors through special order. Ask your General Shale Sales Representative for more details.)*
