

CONCRETE PAVERS

The durability and elegance of FireRock's handcrafted concrete pavers can now be enjoyed throughout your home. From driveways and patios to pathways and interior flooring, FireRock pavers allow your dream home to be truly unique and timeless.

OYSTER

- ◆ Great for crisp, clean architecture
- ◆ Works well with contemporary or Mediterranean designs
- ◆ Our closest color option to white

STEEL

- ◆ Affordable alternative to slate or bluestone
- ◆ Looks great on a patio bordered in brick
- ◆ Works well with more contemporary architecture

CLAY

- ◆ A neutral taupe that will complement most designs
- ◆ Works with nearly any architectural style
- ◆ Affordable alternative to travertine

ORE

- ◆ Great for more natural, rustic architecture and landscapes
- ◆ Complements red brick and stone homes
- ◆ Our truest brown selection

NOTES ON OUR PAVERS

- ◆ Easy to install and seal
- ◆ Can be laid in random, single size or custom designed geometric patterns
- ◆ Versatile sizes for new construction, renovation or landscape use
- ◆ Bullnose and square edge coping available
- ◆ Custom sizes available
- ◆ Meets ASTM C-1731 standards
- ◆ 2x stronger than leading competitor

 - 6" x 9"
 - 12" x 12"

^{*} 1/2" grout line included with all sizes

[†] Pattern includes one 12" x 12", three 6" x 6", and eight 6" x 9" sizes

NON-PITTED PAVERS

Non-pitted pavers offer an alternative to our classic pitted pavers while maintaining the durability and affordability our pavers are known for.

Our non-pitted pavers are hand-crafted using the same proprietary concrete mixture used for our pitted pavers, but eliminates our unique finishing process, which results in a smoother appearance.

Though our non-pitted pavers won't have the pitting that characterizes our standard pavers, they may still have small air bubbles, which are most prominent around the outside perimeter. These air bubbles are a by-product of the hand-crafted process used to create each paver.
